Today We're Making

Salt Paint

You will need:

- White cardstock
- White liquid glue
- Table salt
- Pipette or Dropper
- Food colouring
- Water

Instructions

- Step 1: Partially fill multiple cups with water (how every many colours you desire). Put colouring in the cups and mix.
- Step 2: Draw a design on the cardstock using the glue. Either squeeze the bottle or use an applicator.
- Step 3: Sprinkle salt over top of the glue design. Do this before the glue dries so that the salt sticks. Shake off excess.
- Step 4: Use dropper or pipette to put the colours on the salt, creating a colourful picture. Try to only drop the coloured water onto the salt and not directly on the cardstock.
